News & Updates

June 2020

#Webelieve

IEC Foundation is pleased to announce that our Board of Trustees have approved revisions to our purpose, mission, vision, and values statements.

Purpose:

Founded in 1996, the Independent Electrical Contractors Foundation (IECF) Is a 501c (3) (charitable) organization that supports education and training initiatives which prepare students for successful careers in the electrical systems contracting industry.

Mission:

The Independent Electrical Contractors Foundation (IECF) funds grants, scholarships and programs that contribute to the growth of the electrical systems contracting industry and allows all students equal access to education, apprenticeship, and training.

Vision:

IECF will help to advance the electrical systems contracting industry and improve the quality of life in our communities and the world.

Values:

We believe in our apprentices, contractor members and chapters.

We believe in supporting each other in all circumstances.

We believe that knowledge is the best tool in our toolbox.

We believe in our industry's future.

We believe in the advancement of the electrical contracting systems industry.

With this shift, IEC Foundation reaffirms its continued commitment to support IEC apprentices, contractor members, and chapters through IECF funds, grants and scholarships.

Independent Electrical Contractors Foundation

The IECF has just released a newly updated informational brochure that shares an overview of the foundation's purpose, vision, list of programs, and how supporters can get involved. As IEC Foundation Chairman, Tom Alexander, explains, "We believe in the advancement of the electrical contracting industry. What we do is fund programs, grants and scholarships so that people can pursue a professional career that allows them to support their family, connect with their communities and make a meaningful contribution to our society."

SPONSORSHIP OPPORTUNITIES AVAILABLE

SCHOLARSHIPS

Congratulations to the 2020 IEC Foundation Scholarship Award Winners. We had a successful and competitive application process this year. A total of 78 Scholarships were awarded, in the total amount of \$85,322.43. Scholarships were 100% funded through last year's fundraising efforts and this program would not be possible without the continued support of our IEC Foundation partners and the IEC community. Thank you for investing in tomorrow's electricians!

The IEC Foundation would like to thank Milwaukee Tool and IEC National for sponsoring OneCause. OneCause is a fundraising software tool that we will use for our 1st Online Auction. The software will allow customers to bid and pay invoices securely, after registering with OneCause. Participants can utilize this software live at events or from home if they cannot attend in person. We are excited about increasing support for IECF using this new technology.

INDEPENDENT ELECTRICAL CONTRACTORS

1st Foundation Online Auction

IECF is having its first online auction from Monday, July 6th at 9:00am to Friday, August 7th at 5:00pm EST. The Independent Electrical Contractors Foundation funds grants, scholarships and programs that contribute to the growth of the electrical systems contracting industry and allows all students equal access to education, apprenticeship and training. We are able to do all of the above because of our fundraising efforts through events, sponsorships, raffles, live and silent auctions. For this reason, the IEC Foundation Board of Trustees has decided to hold an online silent auction. All monies raised will go directly to fund the programs above.

IEC Foundation Raffle

**Winning Ticket will be drawn
 at 5:00 pm on October 29, 2020 at
 IEC Convention and Expo Happy Hour**

**Prize : GREENLEE
 855GX INTELLIBENDER®**

Description:

855GX INTELLIBENDER® is Greenlee's most advanced programmable bender. It has all the capabilities to accomplish the most complicated bends with ease and speed. It can bend 3/4" Rigid (in either the 1" Rigid or 1" EMT shoe grooves) and 1" to 2" Rigid, EMT or IMC conduit with just one shoe, featuring smart sensors that know exactly what diameter conduit and type you are going to bend and automatically factors spring-back for any angle. This bender comes with both a robust pendant controller and a state-of-the-art LCD interface, allowing the operator to easily program, save and transfer multiple bends via a USB drive, which makes this unit invaluable on jobs that demand many types and high quantities of bends.

GREENLEE 855GX
 INTELLIBENDER®

Winner does not need to be present to win.
